This was not due so much to any feeling of strong doubt as to the guilt of the acsuced, but rather to the hick of positive evidence, or, at least, what reemed to be a lack of positive evidence in the reports of the trial connecting Bram' with the crime. So far as his administration. is concerned the worst thing that could bappen to it would be to merit, the cadorsement of a handful of theorists who represent nothing but that which is antogonistic to the interests of the people. President Lamb, it he is not entirely

demented on this question, might learn something to his advantage it he could occupy a corner of the room in which the hearlogs in connection with the turiff are now taking place. Two years ago: Mr. A. H. Winchester, of West Virginia, entertained the same foolish ideas to which Mr. Limb still clings so tensclously. Last Thursday he appeared;before the committee, to use his own words, "repeating in tears." Two years ago he was in favor of free lumber. Today he is asking for a duty because free lumber liss destroyed the trade even down in West Virginia. The experience the Wilson-Gorman tarlff has taught bim a lesson that will last for a Turn in whichever direction you please

The lawyer replied certalply not, whereupon the seeker for, information retorted "But be has," So when the free trader inslats that a protective tariff will not supply revenue the answer is, "but it has," The Tressury deficit is a creation of the Democratic party. The Government not only bad sufficient means for current expenses under a protective tariff law, but constantly reduced the public debt. Theory does not count here.
